DECLARATION UNDER 37 CFR 1.132

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

I, John C. Robbins, am a registered US Patent Agent, registration number 34,706, authorized to represent the inventor and the assignee in the instant patent application. I hereby declare the following facts are true and accurate to the best of my knowledge:

1) On April 29, 1999, Applicant submitted a plasmid sample along with appropriate papers to the American Type Culture Collection (ATCC) in accordance with the Budapest Treaty that provided Identification Reference PBSG1057 for the submitted plasmid.

2) The instant application claims priority to provisional U.S. Patent Application Serial No. 60/132,697, filed May 4, 1999.

3) On May 4, 1999, the ATCC issued a paper assigning accession number 203981 to the sample PBSG1057 submitted on April 29, 1999.

4) The sample plasmid submitted on April 29, 1999 and subsequently assigned accession number 203981 corresponds to the plasmid described and claimed in the instant patent application.

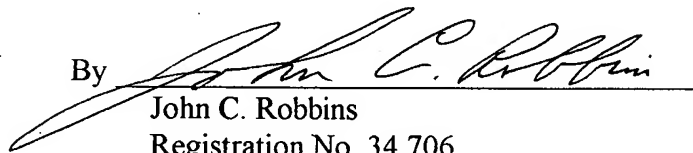

5) Claim 12 of the instant application as originally filed included two typographical errors. Specifically, claim 12 mistakenly recites a viral vector designated as "BSG1057". A single character "P" at the beginning of the designation was unintentionally omitted. The designation should have been listed as - - PBSG1057 - -. Claim 12 also mistakenly recites an assigned accession number as "20398". A single digit "1" at the end of the number was unintentionally omitted. The accession number should have been listed as - - 203981 - -. These two typographical errors have been corrected in the accompanying amendment. The undersigned declares that these two amendments to claim 12 reflect corrections to typographical errors and do not constitute new matter.

6) The undersigned notes that on April 29, 1999, the papers submitted to the ATTC identified the assignee of the instant application as BIOSOURCE TECHNOLOGIES. Subsequent to the filing of the instant application and the ATCC submission, the assignee changed its name to Large Scale Biology Corporation.

The undersigned declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

By
